Subject: CES: Temp Fence Location

James:

This is the location of the temporary fence we installed back in September 2014 to prevent unauthorized access to the property along Wayland Street and to prevent illegal disposal of waste (ie. trash, roofing material, etc) along the city Right of Way and on the property primarily near the Wayland Warehouse. We would like to purchase the rental fencing that we have installed and leave it at the same location as the PRP Group will need this for the same reason. We can work with the city to install a lock for their purposes should they need access.

I believe this is a reasonable step to provide continued relief from illegal dumping and also site security. I am trying to find the appropriate person with PWE to discuss. If you know, please let me know. An on-site visit with them would be the best way to see what is in place and the best options.
Thanks

Gary Moore
